

National Severe Weather Warning Service

Chief Forecasters Assessment

Breaks in cloud cover developing as Friday evening's rain, sleet and snow peters out will allow temperatures to fall and drop below freezing in some places, likely allowing some icy patches to form.

The Met Office have issued a **Yellow Warning of Ice**

Valid from **02:00 on Sat, 18th Mar 2017** until **09:00 on Sat, 18th Mar 2017**

Icy patches are likely to form overnight leading to a chance of difficult driving conditions on untreated roads or where wet weather has led to wash-off where roads have been treated.
